👤 PROFILE

React Native Developer with 3.3 years of experience in building scalable, high-performance mobile applications for Android and iOS. Strong expertise in **React Native, Redux Toolkit, REST API integration, Socket.IO** , and **custom UI development**. Experienced in developing **real-time chat applications, fitness tracking apps, e-commerce platforms, and enterprise-level solutions**. Passionate about performance optimization, clean architecture, and delivering reliable mobile products.

💼 PROFESSIONAL EXPERIENCE

React native developer

Saviesa Infotech

2023 – present
indore, india

- Developed and maintained cross-platform mobile applications using React Native.
- Implemented **Redux Toolkit** for scalable state management and API handling.
- Built **real-time chat features** using Socket.IO including typing indicators and media sharing.
- Integrated third-party APIs such as **Terra API** for fitness and health tracking.
- Optimized app performance using memoization, FlatList optimization, and reusable components.
- Collaborated with designers and backend teams to deliver production-ready features.

React native developer

SMT Labes Private Limited

2022 – 2023
Indore, India

- Worked on multiple mobile applications including CRM, e-commerce, and video-based platforms.
- Implemented authentication flows, role-based access, and API integrations.
- Developed custom UI components and ensured responsive design across devices.
- Fixed production bugs and improved app stability.

🎓 EDUCATION

Master of computer application(MCA)

Rajiv gandhi proudyogiki vishwavidyalaya

2018 – 2020

Bachelor of computer application(BCA)

makhanlal chaturvedi university

2015 – 2018

PROJECTS

SmartFit Pro (Fitness App)

- React Native fitness application integrated with **Terra API** to sync smartwatch data.
- Features include strain tracking, recovery analysis, sleep monitoring, heart rate zones, and calorie tracking.
- Designed for athletes and marathon runners to optimize training performance.

Naqsh (E-Commerce – Seller & Admin App)

- Developed dual React Native apps for **Seller and Admin** roles.
- Implemented product uploads, approvals, listings, and **real-time chat** functionality.
- Created fashion-inspired UI similar to H&M and Zara.

Timmappa (E-Commerce App)

- Cross-platform shopping app similar to Flipkart.
- Integrated **Google Pay, PhonePe, and UPI** payment gateways.
- Focused on smooth navigation and optimized product listing performance.

Flylight CRM

- CRM app to manage leads, tasks, feedback, and scheduled calls.
- Improved productivity with structured lead management.

Bank 316 App (Banking & Trading App)

- Net banking application with **investment and trading features**.
- Allows users to invest in **shares and mutual funds** securely.

Table Tennis (Video Learning App)

- Role-based app with **Coach, Player, and User** accounts.
- Coaches and players upload match videos; users learn and upload their own gameplay.

MPP Disha (Government Support App)

- App designed for **police personnel families**.
- Provides education details, government exam preparation, career guidance, and job listings.

Oranje

- Hotel staff management app with **QR code-based access** and **geo-location tracking**.
- Improves communication and real-time operational updates.
